

MESUT ÖZÜDOĞRU

ISTQB Certified Software Development Engineer in Test

+90 545-535-7565 | mesutozudogru@yahoo.com | Balıkesir / Turkey

www.linkedin.com/in/mesut-ozudogru

PROFESSIONAL SUMMARY

- More than 4 years of experience as a Software Developer Engineer in Test - QA Automation Engineer with expertise in Automation and Manual Testing of Web and Mobile Applications. (ISTQB - Certified Tester Foundation Level-CTFL).
- Skilled in Automation and Manual Testing of Mobile Applications using Appium, Android Studio, BrowserStack, and Charles Proxy.
- Hands-on experience with Web-based applications across all layers, including UI (Java, Selenium WebDriver, Cucumber, JUnit, TestNG, Maven), API (Postman, REST Assured with Java), and Database Testing (SQL, JDBC).
- Strong understanding of SDLC and STLC, with extensive experience in Agile/Scrum methodology and active participation in all Scrum ceremonies.
- Comprehensive knowledge of Java and Object-Oriented Programming (OOP).
- Proficient in designing and developing Data-Driven and Behavior-Driven Development frameworks using Java and Selenium WebDriver.
- Skilled in documentation and collaboration using Jira and Confluence, as well as test management using TestRail.
- A quick learner, good team player, with strong communication and teamwork skills, and a commitment to meeting deadlines.

SKILLS

- **Languages:** Java, HTML, SQL, Gherkin, XML, JSON
- **Automation Tools:** Selenium WebDriver, Appium, Android Studio, Cucumber (UI) REST Assured Library, Postman and Karate (API) JDBC (Database)
- **Manual Mobile Testing Tools:** BrowserStack, Charles Proxy
- **Integrated Development Environment (IDE):** IntelliJ, Eclipse, SQL Developer, POSTMAN
- **Assertion Tools:** JUnit, TestNG, Hamcrest Matchers
- **CI/CD Tools :** Jenkins
- **Build Management Tool:** Maven
- **Test Case Management Tool:** TestRail
- **Project Management/ Bug-Tracking Tool:** Jira, Confluence
- **Testing Frameworks:** Selenium WebDriver, TestNG, DDT (Data Driven Framework), Cucumber BDD (Behavior Data Driven), Karate Framework
- **Design Pattern:** POM (Page Object Model) Design Pattern, Singleton Driver, OOP
- **Version Control System:** Git - GitHub
- **Database Testing Tool:** JDBC
- **API Testing Tool:** REST Assured Library, Karate Framework, Postman
- **Project Methodology:** Agile, Scrum, Waterfall
- **Database (RDBMS):** Oracle SQL, MySQL
- **Parallel Testing/Test Scheduling:** Selenium Grid - Jenkins
- **Platforms:** Amazon Web Services, Docker

EDUCATION

- Doctor of Philosophy** : Business and Administration,
Onsekiz Mart University, Çanakkale / Turkey, 2019 - Expected 2025
- Master of Business Administration:** Business and Administration,
Bandırma Onyedi Eylül University, Balıkesir / Turkey, 2017-2019
- Bachelor's Degree** : Business Administration and Management, General
Anadolu University, Eskişehir / Turkey, 2008-2013

EXPERIENCE

Lamsa

Senior Quality Assurance Automation Engineer

May 2022 – Present

United Arab Emirates • Remote

- Developed and executed Cucumber BDD (Behavior-Driven Development) Framework from scratch using Java, Selenium WebDriver, Cucumber, JUnit, Gherkin, and Maven.
- Ran daily tests using Jenkins and utilized Docker for containerization.
- Conducted automation and manual testing of mobile applications using Appium, Android Studio, BrowserStack, and Charles Proxy.
- Actively participated in Scrum ceremonies (Daily Standups, Demos, etc.).
- Performed database testing using MySQL Developer for manual testing.
- Executed API web services testing with Postman and created automation flows with the Java REST Assured library in BDD format.
- Automated test reports using the Cucumber plugin to generate HTML and JSON reports, attaching screenshots to failed scenarios using Java.
- Utilized Git for version control and GitHub for the remote repository.
- Conducted manual testing on Android and iOS platforms, identifying and reporting errors.
- Performed cross-browser and cross-device testing on BrowserStack to ensure compatibility across a wide range of devices and operating systems.
- Analyzed network traffic for mobile apps using Charles Proxy to identify issues.
- Collaborated with developers and project managers to report and track issues using Jira.
- Experienced in documentation and collaboration using Confluence.
- Managed tests using TestRail.

Environment: Agile, Scrum, Java, Selenium WebDriver, Jenkins, Docker, Appium, Android Studio, BrowserStack, Charles Proxy TestRail, Maven, IntelliJ, Eclipse, Jira, Confluence, Git, REST API, Postman, JDBC, SQL, Windows, AWS.

Macronicsit

SDET

May 2021 – April 2022

United States • Remote

- Involved in developing and executing Cucumber BDD (Behavior-Driven Development) framework from scratch using Java, Selenium WebDriver, Cucumber, JUnit, Gherkin, and Maven.
- Actively participating in Scrum ceremonies (Daily Standups, Demos, etc.).
- Running smoke and regression suites on Jenkins.
- Conducted database testing using SQL Developer for manual testing and the JDBC library for automation.
- Performed API testing with Postman and automated flows using REST Assured in BDD format.

- Automated test reports using the Cucumber plugin to generate HTML and JSON reports, attaching screenshots to failed scenarios using Java.
- Utilized Git for version control and GitHub for the remote repository.

Environment: Agile, Scrum, Java, Selenium WebDriver, Maven, TestNG, IntelliJ, Eclipse, Jira, Git, REST API, Postman, JDBC, SQL, Windows, AWS.

Translantik

QA Automation Engineer

May 2020 - March 2021

United States • Remote

- Actively participating in Scrum ceremonies.
- Created and maintained Cucumber BDD and DDT test frameworks using Java, Selenium WebDriver, Cucumber, JUnit, TestNG, Gherkin, and Maven.
- Performed automation and manual testing throughout the release cycle by executing functional, smoke, regression, API, and database testing as required.
- Retrieved data from the database using JDBC and SQL queries.
- Performed automated API tests using the REST Assured library and manual API tests using Postman.
- Utilized Git as a version control system and GitHub as an online repository.

Ministry of Health (Turkey)

Human Resource Information Specialist (HRIS)

August 2016 - March 2020 • On-site

- Confirms accuracy and integrity of all data entered, maintains data in HRIS systems and databases, and ensures information is available on a timely basis.
- Delivers routine daily/weekly/monthly reporting and responds to basic to intermediate ad hoc data requests.
- Prepares reports, graphs, charts, and statistics in support of human resources operations.
